Work Experience

SaveLife.Al

Frontend Web Developer

October, 2023 - Current

- · Worked in a team to develop AI based healthcare applications.
- · Worked on the development of reusable UI components using React.
- · Worked on maintaining legacy code and re-engineering legacy code to the latest technologies and best practices.
- · Used Atomic design pattern in developing React based web applications.

Selise Digital Platform

Software Engineer Intern

November, 2022 - January, 2023

- · Worked on the development of E-commerce website with React and Express and deployed it for production.
- · Learned about microservices, Cloud services, CI/CD pipelines and developing reusable software with react.

Projects

AizaMD for Clinical Documentation

Technology stack: React js, Zustand, React-query, Typescript, React-hook-form, Material UI.

- Developed a chrome extension which takes voice input from physicians and generates AI notes based on dictation.
- · Used Material UI, Typescript, React Hook Form, React-query.
- · Published to chrome web store.

Live demo

RadioView.AI

Technology stack: Next js, GraphQL, Hasura, vercel. React-query, Redux, Material UI

- Developed an AI based solution and integrated APIs for radiologists to generate report effortlessly.
- Worked on creating a DICOM viewer for viewing X-RAY, MRI, CT scans in this web application.
- · Collaborated with OHIF (Open Health Imaging Foundation) to develop this project.
- Live demo

Online Quiz Application (Personal project)

Technology stack: Next js, ,Node js, Express js MongoDB, vercel, Tailwind CSS.

Link: Github

- · Developed an online quiz application for gamers and other entertainment topics.
- · Used Tailwind CSS, Next js, MongoDB, JWT (for authentication), Node with Express js.
- Developed a leaderboard where users can compete and see each others score.
- Live demo

Technical Skills

Strongest Areas Data Structures, Algorithms, Web Development, API development, Microservices,

Programming Languages Javascript, Python, C/C++

Libraries/Frameworks React.js, Angular, Node js, Express.js, Next.js, Typescript, Webpack, Git, Tailwind CSS

Database MongoDB, MySQL
Platforms Vercel, Heroku

Education _____

Sylhet Cadet College

Sylhet 2013 - 2019

Bangladesh University of Professionals

Mirpur-12, Dhaka
BSc. in Information and Communication Engineering
January. 2020 - 2023

Extra-curricular Activities _____

- Participated in Blockchain Olympiad held in the year 2020 during my first year in university.
- I practice problem solving in leet code.
- Currently learning cloud services in Microsoft Azure.
